## INDUSTRY CHALLENGES

- Lack of thorough & dependable information communication link between various departments
- Traditional work methods are beset with several maladies
- Absence of regular feedback from manufacturing process
- Material requirement is manual & not linked to production plan
- Vendor Follow-ups
- Wrong & excess/short material purchases is a vital problem
- Wages system is complex & prone to errors
- Export documentation & archival is difficult
- Management remains shortsighted to see actual cost of product

**An ERP  
Dedicated to  
Footwear Industry**

## SHOE TECH COMES WITH A BLEND OF FEATURES INTEGRATED INTO 8 MODULES

- Sample processing
- Export documentation
- Planning & Production module
- Wages distribution module
- Procurement and inventory module
- Rate master & costing module
- Financial & sales accounting module
- Quality appraisal & control module

[www.dsvelva.co.in](http://www.dsvelva.co.in)
